The band started as an idea in the head of Sharpshooter (guitars) in the last days of January 2011. Shortly after, Crippler (vocals) Hellson (drums) and Kostas (bass) entered the picture and the first rehearsal was made at the end of February.

Kostas left the band after a while and Snail replaced him and had to learn the songs real fast, so that we could perform our first live, which took place in our home town Ptolemaida at the 28th of May 2011.

Then, we released our first demo-cd "Thrash Upon The Earth" in August 2011.

At the time, our 1st full-length album entitled "Crossoverized" is ready for distribution and we're looking for some live gigs anywhere we can. Also, we're in search of a record company.
